Study Title (maximum 300 characters): Installation and maintenance of a water quality monitoring unit in the Taiya River, Klondike Gold Rush National Historical Park (KLGO)			
Park-assigned Study or Activity #: KLGO-00016	Park-assigned Permit #: KLGO-2010-SCI-0002	Permit Start Date: Jun 01, 2010	Permit Expiration Date: Jun 01, 2015
Scientific Study Starting Date: Jun 01, 2010		Estimated Scientific Study Ending Date: Jun 01, 2015	
For either a Scientific Study or a Science Education Activity, the status is: Continuing		For a Scientific Study that is completed, please check each of the following that applies: <input type="checkbox"/> A final report has been provided to the park or will be provided to the park within the next two years <input type="checkbox"/> Copies of field notes, data files, photos, or other study records, as agreed, have been provided to the park <input type="checkbox"/> All collected and retained specimens have been cataloged into the NPS catalog system and NPS has processed loan agreements as needed	
Activity Type: Monitoring			
Subject/Discipline: Water Quality			

Purpose of Scientific Study or Science Education Activity during the reporting year (maximum 4000 characters): To install and maintain a small, automated water quality monitoring unit in one location along the Taiya River.
Findings and status of Scientific Study (including collections made and catalog status of retained specimens and retained material originating from such specimens) or accomplishments of Science Education Activity during the reporting year (maximum 4000 characters): The water quality monitoring unit was installed in the Taiya River from April 25 to July 25, and from September 14 to November 14, according to the

design plan submitted in the research proposal. From late July to early September the unit was removed for repair. Logging of water quality monitoring parameters began immediately and continued hourly throughout the identified periods. The station was periodically checked, as instructed by the draft water quality monitoring SOP, was removed in the fall, and will be reinstalled in the spring of 2012.

For Scientific Studies (not Science Education Activities), were any specimens collected and removed from the park but not destroyed during analysis?

No

Funding specifically used in this park this reporting year that was provided by NPS (enter dollar amount):

\$5,000.00

Funding specifically used in this park this reporting year that was provided by all other sources (enter dollar amount):

\$0.00

List any other U.S. Government Agencies supporting this study or activity and the funding each provided this reporting year:

For Scientific Studies (not Science Education Activities), were any specimens collected and removed from the park but not destroyed during analysis?

No

Paperwork Reduction Act Statement: A federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. Public reporting for this collection of information form is estimated to average 1.38 hours per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the forms. Direct comments regarding this burden estimate or any aspect of this form to Dr. John G. Dennis, Natural Resources (3130 MIB), National Park Service, 1849 C Street, N.W., Washington, DC 20240.

Privacy Act Notice: Scientific research, education and collecting activities within units of the National Park System that may impact parks invoke a permitting and reporting requirement per regulations at 36 CFR 1.6 (Permits), 36 CFR 2.1 (Preservation of Natural, Cultural and Archeological Resources), and 36 CFR 2.5 (Research Specimens). The National Park Service collects information about permit applicants and permittees to administer and document research, collecting, and reporting activities within parks. The information disclosed on this form is required and may result in denial of permit applications if not provided.
